PRODUCT SHOWCASE

DESCRIPTION

- Adapter to connect balances, force measuring devices etc. with an RS-232 interface to an IP-based Ethernet network

- The adapter allows direct integration of measuring devices into most company networks, with automatic configuration using DHCP or statical IP allocation

- You can access the current measuring data at any time from within the whole network, without having to use additional cables

- The adapter supports a wide range of configurational options using the enclosed administration software or by the web interface

- The driver delivered with the goods allows you to access the measuring device with existing, non-network-compatible applications using a virtual COM port

- Compatible with KERN BalanceConnection software

- Suitable for wall mounting and DIN track mount or free-standing

- Scope of delivery: RS-232 Ethernet adapter with 1× Port RS-232, mains adapter, CD (driver, software, operating instructions), adhesive feet
